March 12, 2020

Citizen Potawatomi Nation Health Services Patients,

In an effort to do our part to help prevent the spread of Coronavirus (COVID-19), CPN Health Services will be implementing several measures to help keep you safe:

- If you feel that you are experiencing life-threatening respiratory illness, please seek care at your nearest emergency room
- We ask you not to visit our clinic facilities in person if you have symptoms of fever, shortness of breath, cough or known exposure to COVID-19. You may call 273-5236 extension 3062 or 695-6003 extension 3315 for symptom triage
- Mandatory questionnaires and symptom checks will be completed at the clinic doors for all patients and guests
- If recommended to wear a mask by CPNHS staff, it will be mandatory for you to wear the mask for the entirety of your visit
- Non-emergent visits are encouraged to be rescheduled to protect you from potential exposure
- COVID-19 hotline is 877-215-8336

Other general measures of protection include:

- Self-quarantine if sick, which could include working from home or staying home from school for a minimum of 14 days
- Avoid crowds and mass gatherings
- Avoid exposing those at higher risk

For further information on COVID-19 we recommend visiting the CDC website at https://www.cdc.gov/coronavirus/2019-ncov/index.html

A proper handwashing technique video can be accessed at https://youtu.be/lisgnbMfKvI

Thank you for your understanding in this matter,
