Our Philosophy of Child Development

We believe that each child is a unique individual.

We are sensitive to a child's social, emotional, intellectual, and physical needs.

We provide developmentally appropriate programs that focus on the process of learning where children enjoy successful experiences.

We Encourage not just learning but the love of learning.

We believe in providing a physical environment that is safe, clean, healthy, and oriented to children.

Classrooms are arranged to offer challenging play and learning opportunities with a range of developmental levels. Activity based emphasis allow children to chance to explore, experience, and most importantly, to succeed.

We believe that the strength of our program is in the dedication of our quality teaching staff.

We support our teachers with training, resources and freedom to create a unique learning experience for children. We provide many opportunities for teachers to share ideas and grow professionally.

Our teachers create caring and nurturing atmosphere and foster each child’s creativity and positive self-image.

We believe in positive methods of Discovery and Instruction

We establish consistent, age appropriate activities to help children function in their world. Our programs are designed to develop in children a sense of independence and responsibility. Our desire is to strengthen each child's own cultural identity, while instilling a respect for other cultures that might be different.

We believe parents are the most significant adults in a child's life.

We strive to create a mutual respect between parents and teachers, creating a partnership for the benefit of the child. We encourage daily communication between parents and the center's staff. Our doors are open to parents at all times. Citizen Potawatomi Child Development Center is an organization that values people, the children in our care, their parents, and employees. We continually work to earn the trust placed in us. We strive each day to be the best provider of childhood education and services in the community that we serve.
