CITIZEN POTAWATOMI NATION

March 25, 2020

To Whom It May Concern:

Re: CPN Daycare at Gordon Cooper Drive

The COVID-19 outbreak has been declared a national emergency, and as of today, authorities have announced that a case has been identified in Pottawatomie County. In order to protect our children and employees, and in conformance with the CDC’s recommendations regarding child care centers, the CPN’s Daycare facility at Gordon Cooper Drive is closed indefinitely, effective this evening. The CPN Daycare facility near the West Clinic will remain open to accommodate the clinic’s employees who are rendering services of medical necessity.

Because of the unprecedented nature of these events, we cannot be certain when the Daycare facility will re-open. As more information becomes available, we will inform you.

We encourage you to take all appropriate precautions to protect yourself and your family. If you have any questions about this outbreak, please consult the CDC’s guidance at:

If you have any questions, you may contact Richard Brown, Director of the Nation’s Human Resources Department at (405) 275 3121.

Sincerely,

LINDA CAPPS, VICE-CHAIRMAN
